

CURRICULUM VITAE

Colleen L. Barry, Ph.D., M.P.P.
cbarry@cornell.edu

BIO SUMMARY:

Colleen L. Barry, a nationally and internationally recognized research scholar, educator, and leader in health policy, is the Inaugural Dean of the Cornell Jeb E. Brooks School of Public Policy. As founding Dean, Dr. Barry has had an influential role in building Cornell's newest school into one of international prominence, launching academic programs and partnerships across campuses, and developing a long-term vision and strategic priorities to position the Brooks School to improve people's lives through public policy.

Dean Barry is an elected member of the National Academy of Medicine and the National Academy of Social Insurance. She has authored 250 peer-reviewed publications in leading journals in medicine, public health, and health policy, including the *New England Journal of Medicine*, *JAMA*, *Health Affairs*, and *American Journal of Public Health*, and has led large-scale research studies funded by the National Institutes of Health, the National Science Foundation, and health-oriented foundations.

At Cornell, in addition to her role as Dean, Dr. Barry is founding co-Director of the Cornell Health Policy Center (CHPC), a partnership between Weill Cornell Medicine and the Brooks School of Public Policy that serves as the hub for health policy research, training and impact-oriented policy engagement at Cornell. She has led several university-wide initiatives including, most recently, chairing a 19-member committee to develop Cornell's policy on expressive activity and protest.

Prior to Cornell, Dean Barry was the Fred and Julie Soper Professor and Chair of the Department of Health Policy and Management at the Johns Hopkins University Bloomberg School of Public Health, the academic home to 100 full-time faculty and over 200 adjunct faculty, five graduate degree programs, and 16 research centers. While at Johns Hopkins, she directed the NIMH funded pre- and post-doctoral mental health services and systems training grant and was the founding Director of the Johns Hopkins Center for Mental Health and Addiction Policy (CMAP). Dr. Barry began her academic career as a faculty member at the Yale School of Public Health. She received her Ph.D. in health policy from Harvard University (2004), her Master of Public Policy from the Kennedy School of Government at Harvard University (1999), and graduated *summa cum laude* with a BA in political science and Russian language and literature from Drew University (1992).

Dean Barry currently serves as Vice Chair of the Board of Directors of Sandy Hook Promise, an organization that seeks to protect children from gun violence. She was a board member and Vice President of the Association for Public Policy Analysis and Management and co-chaired the Forum on Mental Health and Substance Use Disorders of the National Academies of Sciences, Engineering, and Medicine. She also served as a board member of Congregation Rodeph Shalom in Philadelphia.

EDUCATION

Harvard University Graduate School of Arts and Sciences, Cambridge, MA

Ph.D., Health Policy, 2004

Doctoral Dissertation: The Political Economy of Mental Health Parity

National Institute of Mental Health (NIMH), Doctoral Fellowship (T32), 1999 – 2001

Harvard University John F. Kennedy School of Government, Cambridge, MA

Master in Public Policy, 1999

Drew University, Madison, NJ

B.A. (double major: Political Science, Russian Language and Literature), 1992

Summa Cum Laude

Herzen Institute, St. Petersburg, Russia, Spring Semester 1991

La Universidad Catolica, Valparaíso, Chile, Fall Semester 1991

PROFESSIONAL EXPERIENCE

Inaugural Dean, Jeb E. Brooks School of Public Policy

Cornell University, September 2021 – present

Professor (tenured), Jeb E. Brooks School of Public Policy

Cornell University, September 2021 – present

Fred and Julie Soper Professor and Chair, Department of Health Policy and Management

Johns Hopkins Bloomberg School of Public Health, January 2017 – August 2021

Professor (tenured), Department of Health Policy and Management, Johns Hopkins

Bloomberg School of Public Health, November 2015 – August 2021

Professor, Department of Mental Health (joint appointment), Johns Hopkins Bloomberg

School of Public Health, November 2015 – August 2021

Founding Director, Johns Hopkins Center for Mental Health and Addiction Policy, 2015 –

August 2021

Founding Director, Johns Hopkins StigmaLab, 2016 – August 2021

Associate Chair for Research and Practice, Department of Health Policy and Management,

Johns Hopkins Bloomberg School of Public Health, March 2012 – December 2016

Core Faculty Member, Johns Hopkins Business of Health Initiative, 2020 - August 2021

Core Faculty Member, Johns Hopkins Center for Gun Violence Prevention and Policy, 2013

– August 2021

Affiliated Faculty Member, Wendy Klag Center for Autism and Developmental Disabilities, April 2014 – August 2021

Adjunct Senior Fellow, Leonard Davis Institute of Health Economics, University of Pennsylvania, April 2011 – August 2021

Associate Professor, Department of Health Policy and Management, Johns Hopkins Bloomberg School of Public Health, July 2010 – November 2015

Associate Professor, Department of Health Policy and Management, Yale University School of Public Health, July 2009 – June 2010

Assistant Professor, Department of Health Policy and Management, Yale University School of Public Health, July 2004 – June 2009

Director, Health Policy MPH Program, Department of Health Policy and Management, Yale University School of Public Health, January 2005 – June 2010

Policy Analyst, Massachusetts Division of Health Care Policy, Executive Office of Health and Human Services, Boston, MA 1998 – 1999

Legislative Affairs Associate, Vienna, Gregor & Associates (a public policy and lobbying firm), Washington, DC 1995 – 1997

Government Affairs Associate, Rosapepe & Spanos (a public policy and lobbying firm), Washington, DC 1992 – 1995

PROFESSIONAL ACTIVITIES

Honors

Member, National Academy of Social Insurance, elected 2021

Susan Essock Honorary Lectureship, Columbia University, New York NY, 2020

Member, National Academy of Medicine, elected 2019

32nd John Krantz Jr. Distinguished Lecturer, University of the Sciences, Philadelphia PA, 2019

Delta Omega Honor Society, Johns Hopkins Bloomberg School of Public Health, 2017

Excellence in Teaching, Foundations in Health Policy doctoral seminar, Johns Hopkins

Bloomberg School of Public Health, 2017, 2018, 2019, 2020

Excellence in Teaching, Government and Health Policy, Johns Hopkins Bloomberg School of Public Health, 2011, 2012, 2013, 2014, 2015, 2016

Robert Fisher Oxnam Prize, to a political science major with outstanding ability in a foreign language, Drew University 1992

Pi Sigma Alpha, Political Science Honor Society, Drew University, 1992

Dobro Slovo, Russian-Slavic Honor Society, Drew University, 1992

Professional Organizations and Boards

Vice Chair, Board of Directors, Sandy Hook Promise, 2024-present
Member, Board of Directors, Sandy Hook Promise, 2022-2024
Mental Health Task Force, Ruderman Family Foundation, 2020-2024
Co-Chair, Forum on Mental Health and Substance Use Disorders, National Academies of Sciences, Engineering, and Medicine, 2019-2021
Consensus Panel Member, Committee on Medication Treatment for Opioid Use Disorder, National Academies of Sciences, Engineering, and Medicine, 2018-2019
Advisory Board Member, RAND's NIDA Opioid Policy Tools and Information Center for Research Excellence, 2018-2021
Vice President, Association for Public Policy Analysis and Management, elected term, 2016-2018
Member, Policy Council, Association for Public Policy Analysis and Management, elected term, 2013-2015
Board of Directors, Congregation Rodeph Shalom, Philadelphia PA, 2012-2017
Steering Committee, Member Behavioral Health Project, National Quality Forum, 2012-2014
Steering Committee Member, AHRQ Academy for Integrating Mental Health, 2010-2011
Advisory Board Member, Public Policy Center, Federal Reserve Bank of Boston, 2007-2009
Member, Association for Public Policy Analysis and Management, 1999-Present
Member, AcademyHealth, 1999-Present

University Leadership

Chair, Cornell Committee on Expressive Activity, 2024
eCornell Advisory Board, 2023-present
Co-Chair, Search Committee, Director, Cornell Center for Racial Justice and Equitable Futures, 2022
Member, Johns Hopkins University Naming Committee, 2020-2021
Co-Chair, Search Committee, Executive Vice Dean for Finance and Administration, Johns Hopkins Bloomberg School of Public Health, 2019-2020
Advisory Board, 555Penn National Capitol Initiative, Johns Hopkins University, 2019-2021
Academic Board (voting member), Carey Business School, Johns Hopkins University, 2018-2021
Advisory Board (voting member), Bloomberg School of Public Health, Johns Hopkins University, 2016-2021
Advisory Board, Johns Hopkins Undergraduate Program in Public Health Studies, 2017-2021
Committee on Finance, Bloomberg School of Public Health, Johns Hopkins University, 2019-2021
Chair, Johns Hopkins Bloomberg School of Public Health Department of Mental Health Dean's Review Committee, 2019-2020
Search Committee for Dean, Carey Business School, Johns Hopkins University, 2018-2019
Search Committee for Associate Dean for Communications, Johns Hopkins Bloomberg School of Public Health, 2018-2019

Consultations

Consultant, Wesleyan Media Project, 2020

To consult with the Wesleyan Media Project under a Sage Foundation Grant on using political ad data to create valuable scholarly contributions to communication and health policy fields and to examine the connections between public attitudes about electoral priorities.

Consultant, Laura and John Arnold Foundation, 2016-2017

To prepare a White Paper to aid the LJAF in assessing opportunities for investing to achieve transformational, scalable and sustainable change at the intersection of mental illness and criminal justice.

Consultant, Life Balance Program Evaluation, Partners HealthCare, 2014-2015

To provide technical assistance on an evaluation of the Life Balance Program instituted by Blue Cross Blue Shield of Massachusetts in partnership with Partners HealthCare System targeting persons with mental illness to improve self-reported coping of with illness, role impairment and perceived stress and to reduce use of low-value non-mental health care.

Consultant, State Health Reform Access Project, Robert Wood Johnson Foundation, 2014-2016

To provide consultation to document geographic variation in televised media messages about ACA implementation across U.S. media markets, test associations between media messages and Internet search behaviors about insurance enrollment and examine relationships between media messages and changes in insurance enrollment.

Consultant, Assessing the Early Experiences of Dual-Eligible Persons with Disabilities in Massachusetts, Kaiser Family Foundation, 2013-2014

To provide consultation to assess early implementation of Massachusetts' financial alignment demonstration program to integrate care for beneficiaries who are dually eligible for Medicare and Medicaid. Massachusetts was the first state to launch its 3-year demonstration program for dual eligibles, the One Care Program, in October 2013. We conducted interviews with a diverse group of state leaders involved in the design and early implementation of the One Care program.

Consultant, State Implementation of Provisions of the ACA and Behavioral Health Benefits, California Health Care Foundation, 2012

To provide consultation to assess mental health and substance use disorder benefit issues facing California in implementing the essential health benefit provision of the Affordable Care Act consistent with the requirements of the Pete Domenici and Paul Wellstone Mental Health Parity and Addiction Equity Act, California's parity law, and California's autism mandate law.

Consultant, Blue Cross Blue Shield of Massachusetts Foundation, 2011

To provide consultation on implementation of state and federal payment and delivery system reform changes to improve mental health and addiction care for persons living in the Commonwealth of Massachusetts.

Consultant, Massachusetts Division of Health Care Finance and Policy, 2008-2009

To provide consultation services on the preparation a series of reports on the cost and other impacts of bills affecting mental health insurance benefits and children's mental health.

Consultant, Connecticut Office of the Health Care Advocate, 2006-2007

To provide technical assistance consultation to the Connecticut Office of the Health Care Advocate on a range of issues related to grievance and appeals concerns with regard to behavioral health insurance benefits.

Consultant, Alcoa Inc., Employee Benefits North America, 2006

To provide consultation on administrative claims data analyses on various benefit design changes including effects of cost-sharing exemption on use of preventive health care services and the selection of a consumer-directed health plan product.

Consultant, Depression in Primary Care: Linking Clinical and System Strategies, Robert Wood Johnson Foundation, 2005-2006

To provide technical assistance consultation to eight demonstration grantees under the Robert Wood Johnson Foundation's *Depression in Primary Care: Linking Clinical and System Strategies* program implementing clinical changes in depression care alongside changes in contractual relationships, payment methods and other economic arrangements.

Consultant, Commonwealth Fund Quality Colloquium, Institute for Health Policy, Massachusetts General Hospital/Partners HealthCare System, 2003

To provide consultation services and write a briefing paper summarizing the proceedings of a Colloquium bringing in a diverse group of stakeholders to discuss issues related to making the business case for improving health care quality.

Consultant, Workshop Estimating Costs of Parity for Mental Health: Methods and Evidence, Robert Wood Johnson Foundation, 2001

To provide technical assistance in the preparation of a report to summarize the findings of a workshop bringing together experts on use of methods for estimating the costs of mental health insurance parity policies.

Consultant, Executive Program, Skills for the New World of Health Care, Harvard University Kennedy School of Government, 2000

To give a series of guest lectures in the executive leadership program at the Harvard Kennedy School for senior-level executives on mental health policy and health financing and insurance issues.

Consultant, Bipartisan Congressional Health Policy Conference, Harvard University Kennedy School of Government/Commonwealth Fund, 2000-2004

To prepare briefing papers on a range of health policy topics including mental health, end of life care, and Medicare policy issues for members of the U.S. Congress convening for the annual Bipartisan Congressional Health Policy Conference.

TEACHING AND ADVISING

Advisees

Post-Doctoral Fellows

Sachini Bandara, 2018-2019

Stephanie Moore, 2018-2020
Mara Hollander, 2020-2021

Doctoral Advisees

Emma Beth McGinty, Graduated 2013

Thesis title: Serious Mental Illness and Gun Violence: Public Attitudes and Support for Gun Policy

Julia Baller, Graduated 2014

Thesis title: Financing School-Based Health Services for Children with Disabilities: Intersection between Medicaid and the Individuals with Disabilities Education Act

Alene Kennedy-Hendricks, Graduated 2015

Thesis title: Framing, Stigma and Policy Approaches to Addressing Prescription Opioid Addiction

Hillary Samples, Graduated 2017

Thesis title: Health Care for Common Mental Illness: The Impact of National Insurance Reform on Utilization and Spending and a Study of Services Provided in General Medical Settings

Sachini Bandara, Graduated 2018

Thesis title: Policy Evaluation and Strategic Communication Research to Improve the Lives of Individuals with Serious Mental Illness and Criminal Justice Involvement

Katie Heley, HPM doctoral candidates, Graduated 2021

Thesis title: Media Constructions in Three Public Health Contexts: An Exploration of Visual Communication, Representation, and Framing

Other Mentoring and Research Advising

Marian Jarlenski, faculty sponsor on NIDA F31 (awarded May 2013)
Brendan Saloner, K01 primary mentor (awarded February 2017)
Elizabeth Stone, faculty sponsor on NIMH F31 (awarded August 2022)

Classroom Instruction

Instructor, Foundations in Health Policy (1st year PhD Seminar), 2017- 2021
Term 1 (Course 300.721)
Term 2 (Course 300.722)
Term 3 (Course 300.723)
Average enrollment: 8 1st year PhD students
Johns Hopkins Bloomberg School of Public Health (9 credits)
Department of Health Policy and Management, Baltimore MD

Instructor, HPM #300.741.01: PhD Seminar in Health Policy: Using Secondary Data to Conduct Health Policy Research (1st term), 2015-2016
Average enrollment: 9 doctoral students
Johns Hopkins Bloomberg School of Public Health (1 credit)
Department of Health Policy and Management, Baltimore MD

Instructor, HPM #308.602: Role of Government in Health Policy (4th term), 2011-2016
Average enrollment: 50 masters and doctoral students
Johns Hopkins Bloomberg School of Public Health (3 credits)
Department of Health Policy and Management, Baltimore MD

Instructor, HPM 308.702: Data and Methods for Studying U.S. Health Politics (4th term), 2013-2016
Average enrollment: 5 doctoral students
Johns Hopkins Bloomberg School of Public Health (1 credit)
Department of Health Policy and Management, Baltimore MD

Instructor, HPM #306.700.11: Public Opinion, Polling and Health Policy (Summer Institute), 2012

Average enrollment: 15 masters and doctoral students

Johns Hopkins Bloomberg School of Public Health

Department of Health Policy and Management, Summer Institute, Baltimore, MD

Instructor, HPM #300.876.98: Public Opinion, Polling and Health Policy (Fall Institute), 2011

Average enrollment: 9 students

Johns Hopkins Bloomberg School of Public Health

Department of Health Policy and Management, Barcelona Fall Institute, Barcelona, Spain

RESEARCH GRANT PARTICIPATION

Ongoing Research Support

Agency: National Science Foundation NSF #2431915

Grant title: Thought Summit on the Future of Survey Science

PI: Peter Enns (co-PIs: Colleen Barry & Jonathan Schuldt)

Directs: \$39,870

Dates: 7/1/2024-6/30/25

Surveys provide fundamental data about the social and economic conditions of communities around the world. In the U.S., the National Science Foundation funds a number of important social science surveys that produce data relevant to nearly every aspect of American life. The goal of this conference is to bring together principal investigators from several of these surveys and other global experts in survey methodology for a first-of-its-kind meeting to discuss potential synergies across surveys, developments in survey methods including artificial intelligence applications, and best practices for enhancing the efficiency and impact of surveys on society.

Completed Research Support

Agency: National Science Foundation NSF #2210129

Grant title: 2022 Collaborative Midterm Survey

PI: Peter Enns (co-PIs: Colleen Barry & Jonathan Schuldt)

Directs: \$1,999,713

Dates: 7/1/2022-6/30/24

The 2022 Collaborative Midterm Survey is funded by the National Science Foundation 2024 American National Election Study Competition. This survey will be a collaborative of up to three different organizations, researchers, or teams and will include multiple methods to promote innovation, inform the future of survey research, and understand the midterm election.

Grant title: Consumer-Directed Health Plans and Substance Use Disorder Treatment

PIs: Colleen L. Barry (multi-PI: Matthew D. Eisenberg, Hopkins)

Directs: \$1,839,268

Dates: 9/30/18-6/30/23

This project will compare the effects of the decision to offer a consumer-directed health plan option to only offering traditional plan choices under commercial insurance on SUD treatment utilization, including use of medication-assisted treatment, and on treatment for diabetes, cardiovascular disease, depression and nicotine dependence among enrollees with co-occurring SUD.

Agency: NIMH T32MH109436
 Grant title: Mental Health Services and Systems Training Program
 PI: Colleen L. Barry (multi-PI: Elizabeth Stuart, Hopkins)
 Directs: \$2,215,108
 Dates: 7/01/2017 - 8/31/2021

The goal of this program is to produce the next generation of researchers with rigorous training in health services research and economics, statistics and other methodologies, and implementation science, all applied to mental health, and with a deep understanding of how health services and care delivery systems might optimally be designed to serve the needs of persons with mental illness.

Agency: NIDA 1 OT2 OD030208 01
 Grant title: Helping to End Addiction Long-Term (HEAL) Data Platform
 PI: Robert Grossman (Barry: Hopkins Subaward PI)
 Directs: \$131,700
 Dates: 6/01/2020 - 8/31/2021

A challenge in designing and implementing a data sharing strategy for HEAL is its broad range of programs, projects and types of data being collected. The range of data types is extensive, spanning multiple measurement modalities (e.g., clinical data, bioassays, wearables and self-report data) and varying in size and complexity. The data platform will be designed to avoid these problems by meeting each program or project exactly where it is.

Agency: Bloomberg Philanthropies
 Grant title: Testing Interventions to Reduce Public Stigma Among Health Professionals in the Johns Hopkins Health Care System
 PIs: Colleen L. Barry
 Directs: \$250,000
 Dates: 6/01/2019-8/31/2021

The goal of this project is the develop and evaluate a large-scale communications campaign for the Johns Hopkins Health System to lower stigma directed toward individuals with opioid use disorder (OUD) and the FDA-approved medications to treat OUD among health care professionals.

Agency: NIDA R01
 Grant title: State Medical Cannabis Laws, Chronic Non-Cancer Pain, and Opioids: A Mixed Methods Approach
 PIs: Emma Beth McGinty (Barry: Investigator)
 Directs: \$1,751,547 (direct)
 Dates: 7/01/2020-8/31/2021

To use mixed-methods to characterize the implementation and evaluate the effect of state medical cannabis laws on receipt of guideline-discordant opioid and guideline-concordant non-opioid treatment among patients diagnosed with chronic non-cancer pain.

Agency: Arnold Ventures
 Grant title: Using Licensure Authority to Increase Access to Medications for Opioid Use Disorder
 PIs: Brendan Saloner (Barry: Investigator)
 Directs: \$611,800
 Dates: 7/1/2020-8/31/2021

This grant will establish and disseminate model substance use disorder treatment program licensure/accreditation policies and build the evidence base for licensure requirements for medications for opioid use disorder (MOUD) treatment in specialty program.

Agency: NIDA R01DA39127
 Grant title: Health Care Policy and Substance Abuse Treatment Access
 PIs: Mark Olfson and Ramin Mojtabai (Barry: Investigator)
 Directs: \$1,577,802
 Dates: 2/15/2017-8/31/2021

This project will assess whether implementation of recent federal and state health care policies is associated with a change in the percentage of adults with substance use disorders who have Medicaid or private health insurance and who receive treatment for their addictions.

Agency: Arnold Ventures
 Grant title: Increasing Access to Evidence-Based Medication Treatment for Opioid Use Disorder among Justice-Involved Individuals
 PIs: Brendan Saloner (Barry: Investigator)
 Directs: \$323,364
 Dates: 3/15/2019-8/31/2021

The goal of this study is to identify policies and practices that could increase access to FDA-approved medications for opioid use disorder among individuals in criminal justice settings.

Agency: NIDA 1R01DA044987-01
 Grant title: An Evaluation of State Laws Intended to Curb High-Risk Opioid Prescribing
 PI: McGinty and Rutkow (Barry: Investigator)
 Directs: \$900,000
 Dates: 09/30/2017-08/31/2021

The goal is to examine how state laws including prescription drug monitoring program laws, pill mill laws, and opioid prescribing cap laws affect opioid prescribing.

Agency: NIMH P50 MH115842-01
 PI: Daumit (Barry: Investigator)
 Directs: \$1,017,005
 Grant title: Center to Accelerate Translation of Interventions to Decrease Premature Mortality in SMI
 Dates: 08/15/2018 – 8/31/2021

The proposed Center will develop and test innovative strategies for scaling-up effective interventions to address cardiovascular risk behaviors (unhealthy diet, physical inactivity, tobacco smoking) and risk factors (obesity, hypertension, diabetes and dyslipidemia) among consumers with SMI.

Agency: Alliance for a Healthier World's 2020 COVID-19 Launchpad Grant
 Grant title: Civic Engagement, Health Equity and Social Policy in the Time of COVID-19
 PIs: Colleen L. Barry (co-PI: Hahrie Han)
 Directs: \$25,000
 Dates: 5/15/2020-5/14/2021

This project seeks to identify: (1) potential protective effects of civic institutions and (2) possible shifts in public support for social policy that could lead to meaningful reductions in the negative health and economic consequences of the pandemic for vulnerable groups.

Agency: Arnold Ventures
 Grant title: Evidence Based Approaches to Opioid Epidemic Abatement
 PIs: Richard Frank (Barry: Investigator)
 Directs: \$50,474 (Hopkins Sub)
 Dates: 10/1/2019-6/30/2020

The goal of this study is to identify policies and practices that could increase access to FDA-approved medications for opioid use disorder among individuals in criminal justice settings.

Agency: Time-sharing Experiments for the Social Sciences (TESS), National Science Foundation
 Grant title: A Randomized Experiment to Test the Effects of Message Frames on Social Stigma and Support for Punitive Policies toward Individuals with Prior Drug Convictions
 PI: Sachini Bandara (Barry: Investigator)
 Dates: 02/14/2018-04/20/2018

Individuals with drug convictions are at heightened risk of poor health, due in part to punitive public policies. This study tests the effects of message frames on: (1) public stigma towards individuals with felony drug convictions and (2) support for four policies in the United States (U.S.) affecting social determinants of health: mandatory minimum sentencing laws, 'ban-the-box' employment laws, and restrictions to supplemental nutrition and public housing programs.

Agency: National Institute on Minority Health Disparities R01MD010255
 Grant title: Impacts of payment reform on racial disparities in hospital psychiatric care
 PI: Eric Slade (Barry: PI Hopkins Sub)
 Directs: \$1,631,549
 Dates: 07/01/2015-06/30/2019

This proposed study is significant and timely because it can inform policymakers' assessments of how similar "value- based" hospital payment reforms in other states can be designed to improve care for minority patients while preserving the psychiatric care safety-net in low-income minority communities.

Agency: NIMH R01MH107459

Grant title: Impacts of Payment Reform on the Organization of Hospital Care for Persons with Mental Illness

PI: Eric Slade (Barry: PI Hopkins Sub)

Directs: \$1,526,578

Dates: 7/01/2015-6/30/2019

The proposed study is both timely and innovative because its results will inform policymakers' assessments of how similar reforms are likely to affect the quality and value of hospital care for individuals with chronic mental illness and one or more co-occurring chronic medical problems.

Agency: JHSPH Bloomberg American Health Initiative SPARK Award

Grant title: Trends in Volume, Content and Geographic Variation in Political Advertising on Gun Issues over Four National Election Cycles

PI: Colleen L Barry

Directs: \$74,936

Dates: 07/01/2018-06/30/2019

The goal of this study is to provide practical information to national, state and local decision makers on gun-related messaging via televised political advertisements over four national election cycles (2012, 2014, 2016 and 2018) to inform the policy debate around gun policy.

Agency: NIDA R01 DA035214

Grant title: Substance Use Disorder Treatment under New Payment & Delivery System Models

PI: Colleen L. Barry (multi-PI: Haiden A. Huskamp, Harvard)

Directs: \$1,547,303

Dates: 06/01/2013 – 04/30/2018

The goal of this study is to examine the effects of a new payment and delivery system model implemented by BCBS of Massachusetts on: 1) use and price of substance use disorder (SUD) and nicotine dependence services; 2) spending on SUD and nicotine dependence services; and 3) HEDIS-based performance measures for SUD treatment.

Agency: NIMH R01MH096848

Grant title: Effects of State Autism Mandates

PI: Colleen L. Barry (multi-PI: David Mandell, Penn)

Directs: \$2,100,000

Dates: 07/1/2013 – 06/30/2018

The goal of this study is to examine the effects of state autism mandates on the treated prevalence of children with ASD, on service utilization patterns and provider reimbursement rates for treatments used by children with ASD, and on spending on services used by children with ASD covered under commercial insurance.

Agency: NIMH R01MH093414

Grant title: Implementation of Federal Mental Health Parity
 PI: Colleen L. Barry
 Directs: \$1,169,668
 Dates: 03/01/2012 – 02/28/2017

The goal of this study is to estimate the effects of federal parity on: 1) total mental health spending and out-of-pocket mental health spending; 2) the probability of mental health service use, and the quantity and price of mental health treatments; 3) use, spending and the mix of providers accessed out-of-network.

Agency: Harold Simmons Foundation
 Grant title: Gun Owners' Perspectives on Promoting Safe Gun Ownership and Sales Practices
 PI: Daniel Webster (Barry: Investigator)
 Directs: \$411,421
 Dates: 9/01/2013-2/29/2016

The goal of this study is collect public opinion data nationally and within states to examine attitudes and perceptions of gun owners about gun safety measures, sales practices and related policies.

Agency: Time-sharing Experiments for the Social Sciences (TESS), National Science Foundation
 Grant title: Portrayals of Serious Mental Illness: Precursor to Violence or Treatable Health Condition?
 PI: Beth McGinty (Barry: Investigator)
 Dates: 2/6/2016-4/11/2016

In the ongoing national policy debate about how to best address serious mental illness (SMI), a major controversy among mental health advocates is whether drawing public attention to an apparent link between SMI and violence, shown to elevate stigma, is the optimal strategy for increasing public support for investing in mental health services or whether non-stigmatizing messages can be equally effective. We conducted a randomized experiment to examine this question.

Agency: NIDA R01 DA026414
 Grant title: Expanding Treatment for Opioid Dependence among the Privately Insured
 PI: Colleen L. Barry (multi-PI: Susan H. Busch, Yale)
 Directs: \$1,048,963
 Dates: 09/15/2009 - 07/31/2015

In this project, we propose: (1) to study the effects of federal substance abuse parity on use of opioid dependence treatment financed by private insurance and (2) to estimate the relative importance of attributes of opioid dependence treatment on privately insured individuals' decision to enter treatment.

Agency: Laura and John Arnold Foundation
 Grant title: Improving Health Care Linkages for Individuals Involved in the Criminal Justice System
 PI: Colleen Barry (Co-PI: Haiden Huskamp)
 Directs: \$214,051

Dates: 6/16/2014-9/30/2015

The project will examine innovative programs focused on providing formerly incarcerated individuals with access to medical, behavioral health, and social services under the Affordable Care Act (ACA).

Agency: AIG Inc. 114061

Grant title: Prescription Opioid Addiction Research Study

PI: Colleen L. Barry

DirecTs: \$430,655

Dates: 09/01/2012 – 02/28/2015

The goal of this study is to: (1) conduct national opinion surveys to gauge public perceptions about prescription opioid use and abuse; (2) to conduct a web-based survey of physicians (N=1,900) who prescribe opioid medication for pain management to assess self-reported prescribing patterns and awareness of treatment guidelines with a survey-embedded discrete choice experiment; and (3) to assemble a multi-state prescription drug monitoring program database to study determinants of problematic prescribing.

Agency: Commonwealth Fund 20130499

Grant title: Impact of Accountable Care Organization Models with Risk Based Payments on Individuals with Mental Illness

PI: Colleen L. Barry (multi-PI: Haiden A. Huskamp, Harvard)

DirecTs: \$191,783

Dates: 08/01/2013 – 01/31/2015

The goal of this study is to examine the effects of a new payment and delivery system model on treatment outcomes for individuals with mental illness.

Agency: Robert Wood Johnson Foundation Healthy Eating Research (HER) Program

Grant title: Health Claims on Food Marketed to Children: Supporting an Evidence-based Legal Approach (#70755)

PI: Helaine Rutkow (Barry: Investigator)

DirecTs: \$170,000

Dates: 3/1/2013 – 8/31/2014

Food and beverage manufacturers often promote energy dense items for children using varied health claims. Deceptive health claims are prohibited, and may be addressed through litigation or governmental regulatory efforts. The goal of this study is to systematically analyze litigation and governmental regulatory actions on potentially deceptive health claims on foods and beverages marketed to children and to identify regulatory best practices for policymakers.

Agency: Robert Wood Johnson Foundation Healthy Eating Research (HER) Program

Grant title: A Store-based Intervention to Reduce Sugar-Sweetened Beverage Consumption Among Low Income, Black and Hispanic Adolescents (#69292)

PI: Sara N. Bleich (Barry: Investigator)

DirecTs: \$168,770

Dates: 11/1/2011-10/31/2013

The goal of this study is to assess the how easily understandable calorie information could improve food and beverage choices among groups at higher risk for obesity and to test the

impact of easily understandable calorie information on unhealthy snack purchases among Black adolescents.

Agency: Time-sharing Experiments for the Social Sciences (TESS), National Science Foundation

Grant title: Effects of a Randomized Experiment Portraying Mental Illness and Drug Abuse as Treatable Health Conditions

PI: Beth McGinty (Barry: Investigator)

Dates: 07/30/2013-12/06/2013

Portrayal of persons with successfully treated mental illness and drug addiction is a promising strategy for reducing stigma and discrimination toward persons with these conditions and improving public perceptions of treatment effectiveness. We conducted a survey-embedded randomized experiment using a national sample (N=3940) from an online panel to study test this hypothesis.

Agency: Robert Wood Johnson Foundation Healthy Eating Research (HER) Program (#69173)

Grant title: Framing Messages for Taxes on Sugar-Sweetened Beverages

PI: Colleen L. Barry

Direcst: \$150,000

Dates: 8/1/2011 – 7/31/2013

To conduct a message framing experiment to test empirically how arguments for and against sugar-sweetened beverage (SSB) taxes affect policy attitudes overall and within key subgroups, with the goal of identifying the most resilient messages to be deployed in future SSB tax policy debates.

Agency: Robert Wood Johnson Foundation Healthy Eating Research (HER) Program (#68051)

Grant title: Evaluating Methods for Increasing Public Support for Policies Regulating Food Marketing to Children

PI: Colleen L. Barry

Direcst: \$395,528

Dates: 9/1/2008 – 7/14/2012

We propose to develop and test experimental methods for increasing public support for policies regulating food marketing to children. The significance of this proposal lies in its potential for identifying persuasive appeals – referred to as message frames – to enhance public support for childhood obesity prevention policies.

Agency: RWJF 040860 (subaward – 280978-0003)

Grant title: Depression in Primary Care: Linking Clinical and System Strategies

PI: Richard G. Frank (Barry: Yale Subaward PI)

Direcst: \$20,000

Dates: 7/01/2004 – 6/30/2005

A national program funded by RWJF from 2000 to 2007—aimed to spur health care organizations to use a chronic care model to recognize and treat depression, and to develop financial and other incentives to support the use of the model.

Agency: NIMH R01 MH080797-01
 Grant title: Effects of Mental Health Parity on High-Cost and Severely-Ill Individuals
 PI: Haiden A. Huskamp (Barry: Investigator)
 Directs: \$900,000
 Dates: 3/1/2009 – 8/31/2011

The specific aims of this application are to: 1) compare the effects of comprehensive parity on total and out-of-pocket spending across the distribution of expenditures in order to determine whether parity differentially increased financial protection for individuals with high mental health and substance use expenditures; 2) examine the effect of comprehensive parity on the composition and intensity of the treatment they receive; and 3) assess the effect of parity on the likelihood of being rehospitalized and the likelihood of receiving appropriate ambulatory treatment.

Agency: NIMH 1 R01 MH 080883-01
 Grant title: Antidepressant Use and Suicidality
 PI: Susan H. Busch (Barry: Investigator)
 Directs: \$845,279
 Dates: 8/1/2007 – 7/31/2011

This application examines the potential gains and unintended consequences of FDA regulatory policy. Unlike most prior work, the primary focus of this application is not whether antidepressants increase suicide risk, but rather the heightened risk of individuals being under or untreated for illnesses for which effective treatments exist.

Agency: NCI 1 R01 CA 116398-01
 Grant title: For-Profit Ownership and End-of-Life Care
 PI: Elizabeth H. Bradley (Barry: Investigator)
 Directs: \$896,849
 Dates: 8/1/2007 – 7/31/2010

The goal of this study is to produce evidence about the impact of for-profit hospice ownership on cancer care. Our specific aims are: 1) to determine the association between hospice ownership type and claims-based quality indicators for patients dying from cancer, adjusted for patient and county-level features, and 2) to determine the association between hospice ownership type and additional quality indicators for patients dying from cancer that cannot be assessed with claims data and examine how these associations are modified by other organization-level features.

Agency: RWJF HCFO 56465
 Grant title: Effects of State Parity Laws on Children with Mental Health Needs
 PI: Susan H. Busch (Barry: Co-PI)
 Directs: \$45,000
 Dates: 2/1/2006 – 1/31/2007

Using data from the Children with Special Health Care Needs (CSHCN) Survey, a large (N=38,000) nationally representative sample of children whose parents report that the child has more health care needs or disability than other children, we examine the impact of state parity laws on children with more severe health care needs. We propose to study whether state parity laws reduce the financial burden on families of children with mental health conditions, and increase the probability that children receive needed mental health care.

Guest Host, *Public Health on Call* Podcast, Johns Hopkins Bloomberg School of Public Health

1. [Episode 319 – COVID-19, Kids and Summer: Thinking Ahead About Camps, Vacations and Family Fun](#). Families in the US are ready for rest and fun this summer after a very long year. But with unvaccinated children and changing guidance for vaccinated adults, how can families plan ahead for summer camps and travel? Guest host **Colleen Barry** talks with epidemiologist **Keri Althoff**, and **Lisa David**, director of an overnight camp in Pennsylvania, about COVID safety this summer and making sure that kids, who have been through so much over the last year, have a summer of fun and joy. *May 18, 2021.*
2. [Episode 297- The Arithmetic of Compassion: How Psychology and Literature Help Explain the Response to the COVID-19 Pandemic](#). There are psychological and cognitive obstacles to compassion, especially against an invisible virus. **Paul Slovic**, a psychology professor at the University of Oregon, and his son **Scott Slovic**, a literature professor at the University of Idaho talk with guest host **Colleen Barry** about the psychic numbing that occurs when considering large-scale crisis like genocide, climate change, and COVID-19. They also discuss pandemic literature and what it's like to work together as father and son from two seemingly different disciplines. *April 16, 2021.*
3. [Episode 259 - The politics of COVID-19: How worldview influences willingness to follow public health guidance](#). A person's worldview is a fundamental, gut-level set of instincts that has played a larger role in influencing political attitudes over the last two decades. It can also influence thinking on the COVID-19 and on protective actions like mask wearing and social distancing. UNC political scientists **Marc Hetherington** and **Jonathan Weiler** talk with guest host **Colleen Barry** about the concept of worldview and why it matters for understanding the politics of COVID-19. *February 22, 2021.*
4. [Episode 227 – Psychological distress among Latinos during COVID 19](#). **Margarita Alegria**, chief of the Disparities Research Unit at Massachusetts General Hospital, and Hopkins mental health and policy researcher **Beth McGinty** talk with guest host **Colleen Barry** about mental health and wellbeing nine months into the pandemic, the factors behind high rates of distress among Latinos, and policies that could make a difference in the months ahead, *January 6, 2021.*

5. [Episode 209 - COVID-19 transportation safety: Holiday and Everyday Travel, Autonomous Vehicles, and Preparing for Future Pandemics.](#) Are some means of transport safer than others? What about safety during day-to-day transportation on buses? **Mark Rosekind**, a former administrator of the National Highway Traffic Safety Administration, and a Distinguished Policy Scholar at the Johns Hopkins talks with guest host **Colleen Barry** about questions of road safety during this and future pandemics, *November 25, 2020*.
6. [Bonus Episode - Fixing chronic underinvestment in public health and prevention.](#) The COVID-19 pandemic has revealed major deficits in public health infrastructure and a lack of prioritization of prevention efforts. **Ellen J. MacKenzie**, Dean of the Bloomberg School of Public Health, and **Shelley Hearne**, Director of the Center for Public Health Advocacy, talk with guest host **Colleen Barry** about how disinvestment in public health has left a system that is at times unable to respond effectively to today's crises, *November 5, 2020*.
7. [Episode 190 - Election series: What's at Stake with Gun Policy.](#) As part of our election series, **Colleen Barry** talks with **Josh Horwitz**, executive director of the Coalition to Stop Gun Violence, about what's at stake for gun policy in this election. They talk about how 2020 is shaping up to be a grim year for homicides and gun violence, the rise of gun sales and suicides and how the pandemic is affecting gun policy, *October 29, 2020*.
8. [Episode 178: How COVID-19's Misinformation Storm May Impact the Election.](#) Back in April 2020, **Colleen Barry** spoke with **Brendan Nyhan**, professor of government at Dartmouth College, about the politics of misinformation about health and COVID-19. Now, they connect again to discuss what we've learned about misinformation since then, why—like the virus itself—it's so hard to eradicate, and a new threat: how COVID-19 misinformation may impact the upcoming election, *October 13, 2020*.
9. [Episode 136: The Mental Health Crisis Affecting Parents and Children During COVID-19.](#) Economic upheaval, school closures, social distancing, and job losses have all contributed to worsening mental health for parents and behavioral health for children. Pediatrician **Stephen Patrick** is the lead author of a new study that shows how COVID-19 has caused major disruptions to the lives of children and parents. Patrick talks with guest host **Colleen Barry** about how these issues are having particularly devastating impacts on parents facing job loss and food insecurity. One possible upside: the pandemic has elevated policy issues around child care and food security to consideration by Congress. *August 13, 2020*
10. [Episode 101 - How Families Can Make Decisions Around Summer Activities.](#) With vacations and camps upended, families with young children are struggling with making summer plans—especially when there's often confusing or conflicting guidance. Biostatistician **Elizabeth Stuart** and epidemiologist **Keri Althoff** return to the podcast to talk with guest host **Colleen Barry** about their decision-making framework for assessing risk to address questions like childcare, visiting with older relatives, and “quaranteams” with other families. Stuart and Althoff also break down how to make sense of COVID-19 data at the community level and what families can do to still have a joyful, memorable summer. *June 24, 2020*
11. [Episode: 92 - Loneliness is a Public Health Issue—COVID-19 Doesn't Have to Make It Worse.](#) The science behind loneliness shows that it's common and has significant impacts on

physical, mental, and emotional health. The socially isolating circumstances of COVID-19 are exacerbating this issue and could lead to a “social recession.” Former Surgeon General **Vivek Murthy** talks with guest host **Colleen Barry** about how COVID-19 is affecting our social health, how to protect ourselves from the deleterious effects of technology, and what we can do to promote a “social revival” and connect in a time of distancing. *June 11, 2020*

12. [Episode 86: Measuring and Managing Psychological Distress Amid COVID-19](#). To what extent has COVID-19 affected Americans’ mental health? In this episode, guest host **Colleen Barry** speaks to **Beth McGinty**, lead author of a new study which finds a significant increase in psychological distress among adults in the U.S. in April at the height of social distancing. **Dani Fallin**, Chair of the Department of Mental Health, also discusses mental health as a public health issue more broadly and ways to protect our own mental health and those of others during these stressful times and beyond. *June 4, 2020*
13. [Episode 76 - How COVID-19 is Impacting Sex Workers and People Who Use Drugs](#). For people who live on or earn their income from the streets, COVID-19 has made their lives exponentially harder—they may be more vulnerable to the novel coronavirus and to other outcomes like violence, injury, or illness. Caring for these populations is necessary for public health, says **Susan Sherman**, founder of [a harm reduction center in Baltimore](#). Dr. Sherman talks to guest host **Colleen Barry** about her outreach work during COVID and how principles of dignity and respect are even more important at a moment like this one. *May 21, 2020*
14. [Episode 59: Social Media, Scientific Uncertainty, and Political Polarization – COVID-19’s Misinformation Storm](#). Misinformation about COVID-19 can have real human costs in the forms of physical harm and “straining the fabric of democracy.” But where does misinformation come from and how can it be prevented when so much is still unknown about the virus? Guest host **Colleen Barry**, chair of the Department of Health Policy and Management, talks with **Brendan Nyhan**, an expert in the politics of misinformation about health, about why people might believe false claims, the role of politics, and how to keep science at the center of the discussion. *April 30, 2020*
